Call for Event:

The FedCSIS multi-conference consists of a number of antecedent Events, but the Call for Events is open in all areas of computer science and information systems and new proposals for associated Events (conferences, symposia, workshops, special sessions, etc.) are cordially invited until December 11, 2011.

The proposals should be prepared according to requirements specified in the Call for Events at the conference website <http://www.fedcsis.org>

The Events will be selected on the basis of scientific/technical interest and/or their relevance to practitioners in their topics, the clarity of the proposal in addressing the requested information, the innovativeness of the Event topics, and the capacity in the FedCSIS conference program.

Call for Papers:

The FedCSIS Events provide a platform for bringing together researchers and practitioners to present and discuss ideas, challenges, and new solutions in computer science and information systems. Topics of interest are defined by the Events constituting FedCSIS and listed at <http://www.fedcsis.org>

The papers should be submitted to a chosen Event by April, 22, 2012 using the FedCSIS submission system.

Accepted and presented papers will be published in the IEEE Xplore Digital Library Proceedings and will be entitled "2012 Federated Conference on Computer Science and Information Systems (FedCSIS)" (pending). Because the IEEE Proceedings will be published under nonexclusive copyright, the Events' organizers will endeavor to arrange quality journals, edited volumes, etc. and will invite extended and revised papers for post-conference publications.

Important Dates:

Submission of Event Proposals: **December 11, 2011**

Paper submission: **April 22, 2012**

Author Notification: **June 17, 2012**
